

The Workshop

The aim of the Workshop is to present and discuss about the collaboration between the Italian and international scientific community in the water sector with specific regard to the initiatives promoted by the Law n. 100 dated 9/8/2013 "Validation and execution of the agreement between the Italian Government and the United Nations Organization for the Education, Science, and Culture related to the UNESCO Programme Office on Global Water Assessment functioning in Perugia, that hosts the World Water Assessment Programme secretariat, done in Paris on September 12, 2012".

The Workshop will contribute to synergic studies on water with the WWAP in Villa La Colombella with regard to the recent institution of the UNESCO Chair by the University for Foreigners of Perugia on "Water Resources Management and Culture" in collaboration with the universities of the H2CU Center.

Also the scientific aspects of the 15th World Lake Conference (WLC15) that will be held in Perugia in September 2014 (www.wlc15perugia.com) will be discussed;

Rome

Firenze Palace
Piazza Firenze 27.

September 16th, 2013 – 10:00 AM

Firenze Palace Primaticcio Hall

Palazzo Firenze is located in Rome, in the area of Campo Marzio, in the Florence square. It belonged to the family Del Monte, then the Medici of Florence (hence the name): formerly the seat of the Ministry of Justice, since 1926 houses the Dante Alighieri Society.

The pictorial decoration of the rooms of the palace was traditionally attributed to Federico Zuccari or Primaticcio and Prospero Fontana, who painted the frescoes for many rooms of the building such as the loggia on the ground floor (formerly known as the Primaticcio).
